Worship Attendance

5

Char Anderson

These are a few examples of work done through the church this past year

Brought a homeless woman who visited the church home with me for the night and helped her find housing the next day. Helped with 1st month's rent as she had not yet started receiving her unemployment; Helped a woman from an assisted living home, picked her up for church service. Later, when her husband moved to Vancouver, helped him find housing; took her to food bank and gave her spiritual counseling .

Other examples are: Man and wife formerly living at Open House—took wife to doctor, helped with rent one month before husband's unemployment became effective, phone calls, cards.

Made a number of phone and in-person visits to people who visited the church

Helped one of the people who comes to attends church sporadically, to start an in-home bible study

Held women's Bible study class at Open House Ministries. Many times one or more of the women stayed after class for spiritual counseling and prayer.
